

When will my Rhody start to bloom?

As you will notice in our Rhody Book, all our varieties have been categorized into early, mid, and late bloom times. *Although the exact time your rhody will bloom is determined by several factors, such as the weather, here are some estimated dates to give you an idea of when the blooms will begin to flourish.*

Very Early	Late January through mid-March
Early	Mid-March through mid-April
Early/Mid	Mid-April through early May
Mid	Early May through early June
Late	Early June through mid-June
Very Late	Mid-June through early August
