

Deer “Resistant” Plants

Many PNW gardeners face the same problem- deer! We are often asked, “What plants do you have that the deer won’t touch?” Although there is no exact way to determine what the deer in your neighborhood will and won’t eat, here are some examples of plants that have been reported as being ‘Deer Resistant’.

Keep in mind we also have many different methods of *deer repellent*.

Trees and Shrubs	Cleome (Spider Plant)
